

TUSHAR GUPTA

Mumbai, Maharashtra, India | +91 9076066412 | tusharwebdevp@gmail.com | linkedin.com/in/tushar-gupta-949873373 | github.com/TusharGupta2820

PROFESSIONAL SUMMARY

- B.E. IT undergraduate, CGPA 8.9 — TCET, University of Mumbai (2023-2027); 5+ end-to-end projects across AI/ML, full-stack, computer vision, and real-time systems.
- Led 4 internships (AI strategy, full-stack, frontend, web dev) using React.js, FastAPI, Node.js, PostgreSQL, AWS, Docker, and CI/CD pipelines.
- Proficient in Agile/Scrum, microservices, REST APIs & WebSockets, RBAC/JWT auth, cloud computing, and generative AI tooling.
- Strong team collaboration, problem-solving, and communication skills; targeting software development or AI engineering roles.

EDUCATION

University of Mumbai — B.E. Information Technology, CGPA: 8.9

2023 - 2027

Coursework: DSA, OS, CN, DBMS, Web Development, Software Engineering, AI/ML, DMBI

TECHNICAL SKILLS

Languages: Python, C++, Basics of Java, JavaScript, TypeScript, HTML5, CSS3, SQL

Frameworks & Libraries: React.js, React Native, FastAPI, Node.js, Express.js, Tailwind CSS, Pandas, NumPy, Scikit-learn, PyTorch, TensorRT

Tools & Platforms: AWS, GCP, Docker, Docker Compose, Terraform, Git, GitHub, Supabase, Postman, Linux, GitHub Actions

Concepts & Practices: REST APIs, WebSockets, WebRTC, JWT, RBAC, Generative AI, Gemini API, Machine Learning, Computer Vision, Real-Time Systems, Video Streaming, Cloud Computing

Databases & Infrastructure: PostgreSQL, Redis, SQLite, AWS S3, AWS RDS, AWS SES, AWS Kinesis Video Streams, OpenSearch, MinIO, Prometheus

AI Tools: ChatGPT, Claude, Gemini, Ollama, Llama 3.1, DeepSeek R1, Whisper, PaddleOCR, ChromaDB, GitHub Copilot, Cursor, Perplexity, Midjourney

Soft Skills: Team Collaboration, Problem Solving, Communication, Leadership, Adaptability

PROJECTS

GyaanSetu AI — Bridging Knowledge Through Personalized Learning (Final Year Project)

React, TypeScript, FastAPI, Python, Ollama, Llama 3.1, DeepSeek R1, Whisper, PaddleOCR, ChromaDB

- Building a multilingual, personalized AI learning platform with adaptive study plans, doubt resolution, and OCR/voice-based content ingestion.

AI-Powered Drone Fleet Management & Real-Time Video Analytics

React, FastAPI, PostgreSQL, Python, WebRTC, WebSockets, AWS Kinesis Video Streams, Terraform

- Built a drone fleet management platform with live video streaming and AI-driven analytics for real-time surveillance and fleet coordination.

AI-Powered Real-Time Monitoring & Alert System

React, TypeScript, FastAPI, PostgreSQL, WebSockets, OpenSearch, MinIO, Prometheus, Docker, Kubernetes

- Developed a real-time monitoring and alerting system with searchable logs, object storage, and metrics-driven dashboards.

Blockchain-Secured Healthcare Intelligence

Algorand, MongoDB, Python, AI/ML, Docker

- Built blockchain healthcare platform; eliminated unauthorized record access (100% secure) via role-based access (Patient, Doctor, Lab, Admin) with AI-driven clinical insights.

Full-Stack Website with Integrated CRM Dashboard

React.js, Node.js, MongoDB, REST API, JWT, AWS

- Developed full-stack CRM platform with lead management and sales pipeline tracking; cut manual data entry by 40%; deployed on AWS via CI/CD with 99.9% uptime.

Full-Stack Internship & Project Management Platform

React, REST APIs, JWT, RBAC, PostgreSQL, AWS RDS, S3, SES

- Built a platform to manage internships and project workflows with role-based access, cloud storage, and automated email notifications.

AI-Powered Attendance & Workforce Management Platform

React, TypeScript, Node.js, PostgreSQL, AWS, GitHub Actions

- Developed an AI-assisted attendance and workforce management system with automated CI/CD deployment pipelines.

EXPERIENCE

Zeex AI — AI Intern | Operations Lead | Business Lead

Jan 2026 – Present

Pan India (Hybrid) | AI Strategy, Model Deployment, Business Expansion

- Led AI model deployment pipelines using Agile/Scrum and CI/CD; improved client onboarding efficiency by 20% and reduced cross-team coordination overhead by 15%.

FullStackVerse — Full Stack Developer

Jan 2026 – Mar 2026

Remote | Full-Stack Web Development, REST APIs, CI/CD

- Built 3+ full-stack apps (React.js, Node.js, MongoDB) with JWT auth and Docker; reduced deployment time by 30% via CI/CD automation.

Cognifyz Technologies — Frontend Developer Intern

Nov 2025 – Dec 2025

Remote | Frontend Development, Performance Optimization

- Delivered 10+ responsive UI components; improved page load speed by 25% through performance optimization and REST API integration.

TCET — Web Development Intern

Nov 2024 – Dec 2024

Mumbai, India | Web Development, Backend Integration, Agile

- Built responsive web pages with backend API integration; executed testing & debugging across 5+ modules in an Agile team.

EXTRACURRICULAR

• **Z Tracs — Core Team:** 1st Prize, Yuva AI Impact Summit 2026, New Delhi — secured 1st among 100+ teams with an award-winning AI solution.

• **Hackathons (15+ National-Level):** SunHack, RIFT 2025, Amazon ML, AI HealthX 2026, GenAlverse — 8th/200+ at CraftVerse (PCCOER).

• **NSS | ACM Student Chapter | SORT Committee** — Active Member, 2023 – Present.

CERTIFICATIONS

- Frontend Dev (HTML, CSS, JS)
- PHP & Backend Development
- MongoDB Basics (Official)
- Digital Marketing with AI
- Data Analytics Fundamentals
- Power BI Visualization
- Python Programming (YBL)
- DevOps & CI/CD Fundamentals
- AWS Cloud Practitioner
